Concept

The concept for this project was to pick a book and create a title sequence for it as if it had been made into a movie, I chose *Firebringer* by David Clement-Davies

The book

FireBringer tells the story of a young deer named Rannoch who is bork with the mark of an oak leaf on his head fortold in an ancient prophecy. He is hunted by those who see the threat of this prophecy and he embarks on an epic quest to save himself, his friends and all the animals in the forest from the tyranny of evil.
